

## Measuring Your Spelling Words

**Area** — is the number of square units an object or space covers.

**Perimeter** — is the number of units around the outside of an object or space.

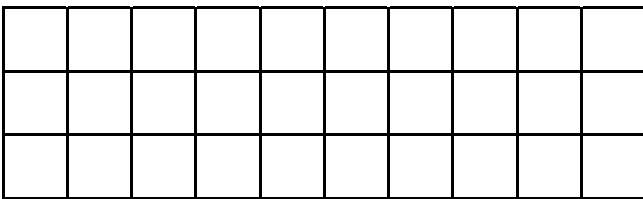

Determine the area and perimeter of each of your spelling words by tracing around the word with a pencil or crayon, and counting the total number of square units covered (area) and the number of units around the outside of the word.

**EXAMPLE:**

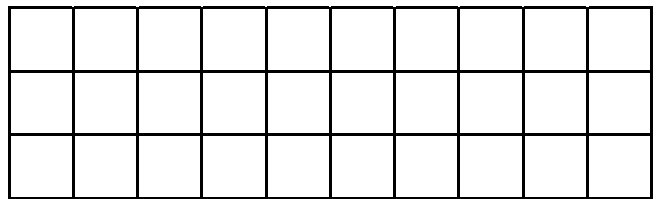

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

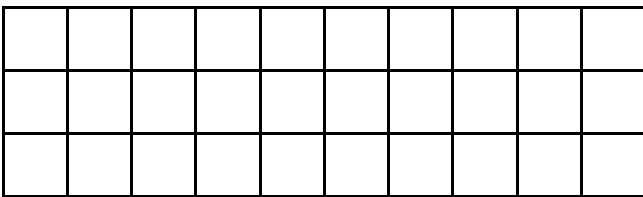

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

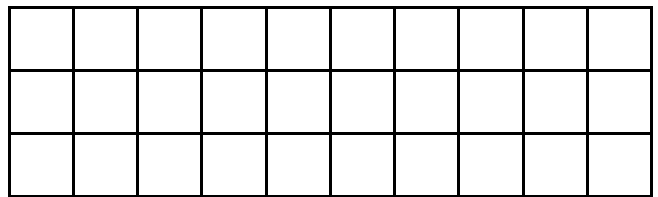

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

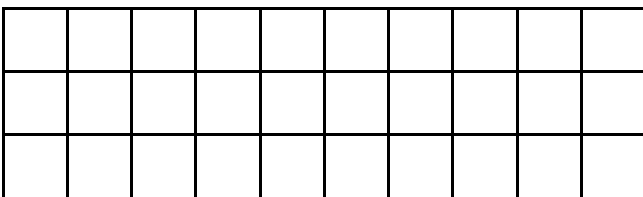

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

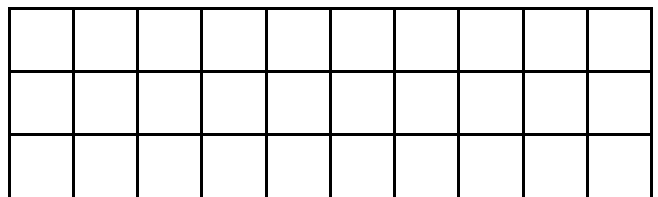

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

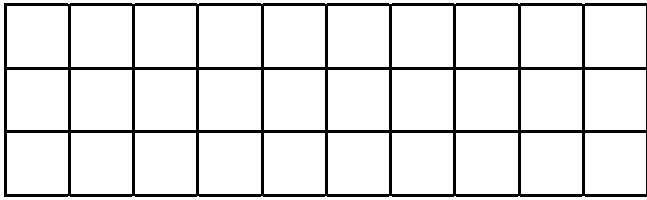

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

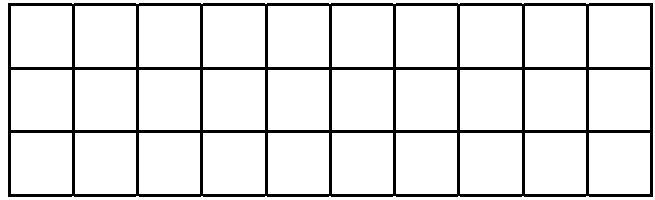

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

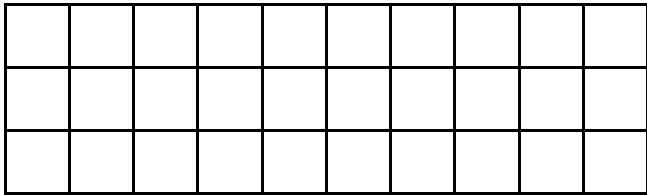

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

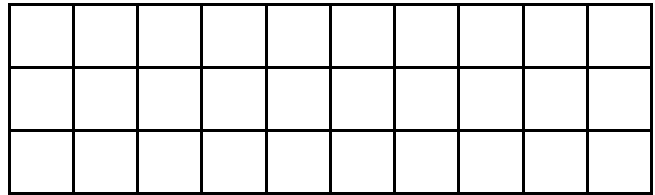

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

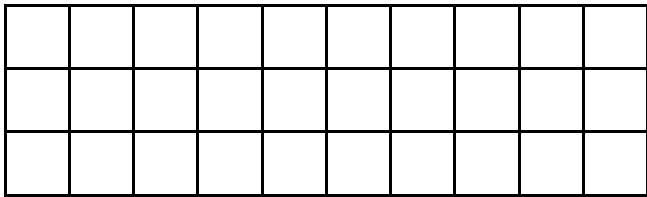

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

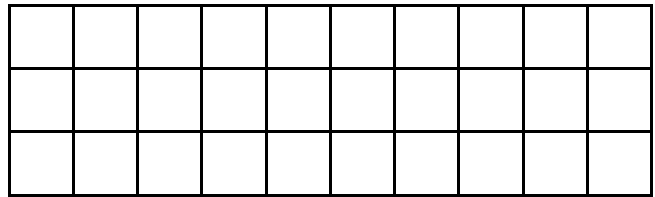

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

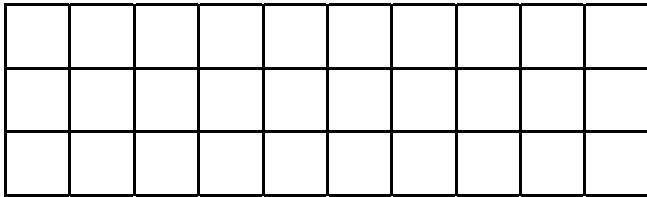

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

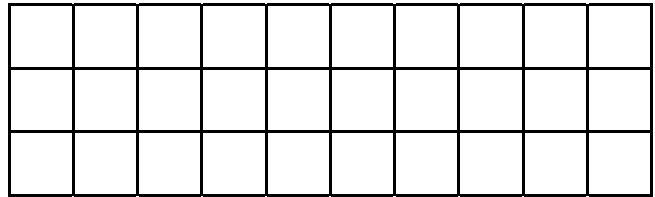

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

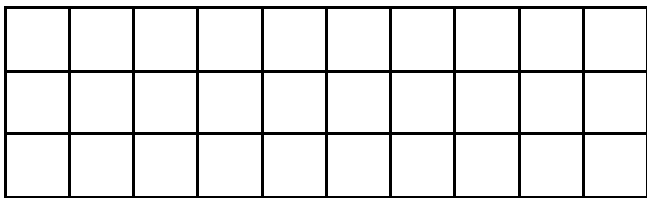

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

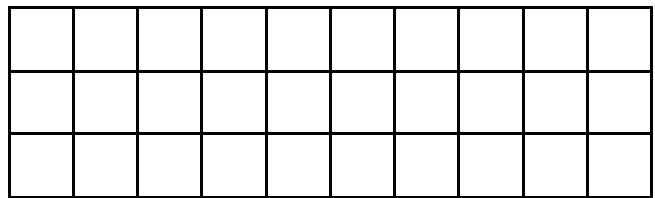

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_

The **area** of the word is \_\_\_\_\_

The **perimeter** of the word is \_\_\_\_\_
